“The latest landscape design information and sketches will be available at the meetings and allows residents the opportunity to provide feedback on the look of the motorway and surrounding areas once the upgrade is complete,” a Hills M2 Upgrade spokesperson said.

“The upgrade will result in a number of changes to the motorway corridor including intersection upgrades, new and modified noise walls as well as landscaping and bush regeneration.

“We encourage the community to make the most of this opportunity to have input into the look of the motorway after the upgrade. More information is also available at www.hillsm2upgrade.com.au

“The community information sessions also provide residents and motorway users with an opportunity to discuss upcoming works in their area with the project's construction, environment and traffic specialists.

“These sessions are one way motorists and residents can stay up to date with work on the motorway. The project team also provide information on the project through www.hillsm2upgrade.com.au, www.livetrafficnsw.com.au newspaper advertisements, road work alerts, flyers for bus patrons, posters at bus stations, electronic message signs, community newsletters, letterbox drops and a 24/7 community information line.”
