IMMEDIATE RELEASE

30 May 2011

Hills M2 Upgrade Roadworks and Lane Closures: 30 May – 12 June

The following table shows lane closures that will be in effect on the Hills M2 from Monday 30 May until Sunday 12 June 2011 to facilitate roadworks as part of the \$550 million Upgrade Project.

Works over the coming fortnight, weather permitting, include:

- lowering a piling rig to the bottom of Darling Mills Creek bridge and removing a 14t excavator
- lowering pile cages and piling rig to the work site below Terrys Creek Bridge
- demolition at Christie Road Bridge median
- installation of scaffolding at Beecroft Road bridge abutment and Murray Farm Road bridge abutment
- surveying the road pavement westbound between Toll Plaza and Norfolk Tunnel
- works supporting the motorway control system
- set up of temporary road work signs to enable construction activities on the Christie Road bridge
- installation of optic fibre cables

The same number of general lanes remains open to motorists during peak period travel periods as was the case before the upgrade.

There will also be lane closures and contra-flow arrangements in the Norfolk Tunnel every night from Monday to Saturday for the life of the project.

“Motorists are reminded to plan their trip as work continues to upgrade the Hills M2 Motorway and changed speed limits are in place,” a project spokesperson said.

“The Hills M2 Motorway management apologise for the delays during construction and thank motorists for their patience.

“The project team will seek to minimise impacts; however, as the M2 Upgrade is the largest project undertaken on an operational motorway in New South Wales, delays can be expected over the two year construction period.”
