

## Roadwork Alert

IMMEDIATE RELEASE

1 July 2011

### Hills M2 Upgrade Roadworks and Lane Closures: 4 – 17 July

The following table shows lane closures that will be in effect on the Hills M2 from Monday 4 July until Sunday 17 July 2011 to facilitate roadworks as part of the \$550 million Upgrade Project.

In addition, other changed traffic conditions on local roads include:

- Beecroft Road bridge: from 8pm Friday, 8 July until 5am Monday, 11 July and the following weekend from 8pm Friday, 15 July until 5am on Monday, 18, July there will be partial lane closures and reduced speed limits to facilitate concrete pours and tensioning work.

Works over the coming fortnight, weather permitting, include:

- lifting bridge girders on to Windsor Road bridge
- lowering a piling rig to the bottom of Darling Mills Creek bridge
- lowering pile cages and piling rig and concreting the western abutment at Terrys Creek bridge
- installation of scaffolding at Barclay Rd bridge, Beecroft Rd bridge and Murray Farm Rd bridge
- demolition at Christie Road bridge median
- installation of new cabling to support the motorway control system
- niche excavation and rockbolting in Norfolk Tunnel
- relocation of barriers and installation of temporary noise walls and traffic management signage
- surveying road pavement

The same number of general lanes remains open to motorists during peak period travel periods as was the case before the upgrade.

There will also be lane closures and contra-flow arrangements in the Norfolk Tunnel every night from Monday to Saturday for the life of the project.

“Motorists are reminded to plan their trip as work continues to upgrade the Hills M2 Motorway and changed speed limits are in place,” a project spokesperson said.

“The Hills M2 Motorway management apologise for the delays during construction and thank motorists for their patience.

“The project team will seek to minimise impacts; however, as the M2 Upgrade is the largest project undertaken on an operational motorway in New South Wales, delays can be expected over the two year construction period.”
